This relates to the news article published by the Philippine Star yesterday, 29th of March 2006 which alleged among others that the Election Officers are instructed to conduct verification of signatures collected in support of the charter change.

Thereafter, our office received from the local government the list of names and its corresponding signatures for verification.

Hence, in contemplation of the legal and political aspects involved, we are submitting to your prudent deliberation this matter on what steps should be taken.

An expedited response will be most appreciated.
